SAFETY DATA SHEET

1. Identification

Product identifier
Blue Lotion Spray

Other means of identification
None.

Recommended use
As a topical stain to be applied to the hides of animals to provide an identifying mark.

Recommended restrictions

Manufacturer/Importer/Supplier/Distributor information

Manufacturer
Boehringer Ingelheim Vetmedica, Inc.

Address
2621 North Belt Hwy
St. Joseph, MO 64506-2002

Transportation emergency
For Chemical Emergency Spill, Leak, Fire, Exposure, or Accident Call CHEMTREC Day or Night
Within USA and Canada: 1-800-424-9300
Outside USA and Canada: +1 703-527-3887 (collect calls accepted)

Medical Emergency
(24HR):
(866)638-2226

Non-Emergency calls:
(800) 821-7467

2. Hazard(s) identification

Physical hazards
Flammable liquids
Category 2

Health hazards
Acute toxicity oral
Category 4
Serious eye damage
Category 1
Carcinogenicity
Category 2

Environmental hazards
Hazard to the environment, long-term hazard
Category 1

OSHA defined hazards
Flammable liquid.

Label elements

Signal word
Danger

Hazard statement
Highly flammable liquid and vapor.
Harmful if swallowed or inhaled.
Causes serious eye damage.
Suspected of causing cancer.
May cause genetic defects.
May damage fertility or the unborn child.
May cause respiratory irritation.
May cause drowsiness or dizziness.
Very toxic to aquatic life with long-lasting effects.
Precautionary statement

Prevention

Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
Keep container tightly closed.
Ground/bond container and receiving equipment.
Use explosion-proof electrical/ventilating/lighting/equipment.
Use only non-sparking tools.
Take precautionary measures against static discharge.
Avoid breathing dust/fume/gas/mist/vapours/spray.
Do not get in eyes, and avoid contact with skin and clothing.
Wear personal protective equipment as required.
Wear protective gloves/protective clothing/eye protection/face protection.
Do not eat, drink or smoke when using this product.
Do not breathe mist/vapors/spray.
Wash thoroughly after handling.
Use only outdoors or in a well-ventilated area.
Avoid release to the environment.

Response

In case of fire: Use water spray, foam, dry powder, or carbon dioxide to extinguish.
If exposed or concerned: Get medical advice/attention.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor/physician. If eye irritation persists: Get medical advice/attention.
IF SWALLOWED: Call a poison center or doctor/physician if you feel unwell. Rinse mouth.
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Collect spillage.
Absorb spilled substances with inert material and sweep into appropriate waste containers.

Storage

Store locked up.
Store in a well-ventilated place. Keep cool.
Keep only in original container.
Keep container tightly closed.
Keep at a temperature between 15°C and 30°C.
Keep out of reach of children.
Keep away from food, drink, and animal feedstuffs.

Disposal

Dispose of waste and residues in accordance with local authority requirements.
None known.

Hazard(s) not otherwise classified (HNOC)

3. Composition/information on ingredients

4. First-aid measures

Inhalation
Move to fresh air. If breathing is difficult, give oxygen. If not breathing, provide artificial respirator. Get medical attention immediately.

Skin contact
Rinse skin with water/shower. Get medical attention if irritation develops and persists.

Eye contact
Do not rub eyes. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.

Ingestion
Rinse mouth. Call a physician or poison control center immediately. Only induce vomiting at the instruction of medical personnel. Never give anything by mouth to an unconscious person.

Most important symptoms/effects, acute and delayed
Irritation of eyes. Ingestion of a large quantity may cause nausea and systemic effects.

Indication of immediate medical attention and special treatment needed
Not for human use. For use in animals only. Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed. Persons developing anaphylactic (life threatening) reactions, such as difficulty in breathing or unconsciousness, must receive immediate medical attention.

General information
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing media
None known.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed. Combustion products may include: carbon oxides, nitrogen oxides, hydrogen chloride.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire. In the event of a fire, do not breathe fumes. Use water spray to cool unopened containers. Move exposed containers from fire area if you can do so without risk. Withdraw immediately in case of rising sound of venting from safety device or discoloration of container due to fire. Fight fire from a safe distance.

Fire fighting equipment/instructions
Use standard firefighting procedures and consider the hazards of other involved materials.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Eliminate all sources of ignition. No smoking. Ground and bond all equipment when handling this product. Use non-sparking tools. Wear appropriate personal protective equipment (see Section 8). Keep unprotected personnel away. Keep upwind of spill. Keep out of low areas. Ventilate the area. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up
Large Spills: Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Place spillage in appropriate container for waste disposal. Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions
Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling
Do not use near fire, sparks, or any other open flame. Take precautionary measures to avoid static discharge. Do not puncture or incinerate container. Avoid contact with eyes, skin, and clothing. Do not taste or swallow. Avoid breathing vapor or mist. Wash hands thoroughly after handling. Use with adequate ventilation. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store in original tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS). Store away from foodstuffs. Store material between 15°C (59°F) and 30°C (86°F). Store out of direct sunlight.
8. Exposure controls/personal protection

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear safety glasses with side shields (or goggles).

Skin protection
Hand protection
Wear appropriate chemical resistant gloves.

Other
Wear suitable protective clothing.

Respiratory protection
If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA standard 63 FR 1152, January 8, 1998.

Thermal hazards
Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 10. Stability and reactivity

Reactivity Chemical stability Possibility of hazardous reactions

Material is stable under normal conditions. No dangerous reaction known under conditions of normal use.

Conditions to avoid

Heat, sparks, flame. Contact with incompatible materials.

Incompatible materials

Strong oxidizing agents.

Hazardous decomposition products

Carbon oxides, nitrogen oxides, hydrogen chloride.

Explosive limit - upper (%) Not available.

Vapor pressure Not available.

Vapor density Not available.

Relative density 1.065
Solubility(ies)
Solubility (water) Soluble in cold and hot water
Partition coefficient
(n-octanol/water) Not available.
Auto-ignition temperature 454°C (850°F)
Decomposition temperature Not available.
Viscosity Not available.

10. Stability and reactivity
Reactivity Chemical The product is stable and non-reactive under normal conditions of use, storage and transport.
Stability Possibility of Material is stable under normal conditions.
Hazardous No dangerous reaction known under conditions of normal use.
Reactions

Conditions to avoid Heat, sparks, flame. Contact with incompatible materials.
Incompatible materials Strong oxidizing agents.
Hazardous decomposition Carbon oxides, nitrogen oxides, hydrogen chloride.

Explosive limit - upper (%) Not available.
Vapor pressure Not available.
Vapor density Not available.
Relative density 1.065
Solubility(ies) Soluble in cold and hot water
Solubility (water)
Partition coefficient
(n-octanol/water) Not available.
Auto-ignition temperature 454°C (850°F)
Decomposition temperature Not available.
Viscosity Not available.

11. Toxicological information
Information on likely routes of exposure
Inhalation Prolonged inhalation may be harmful.
Skin contact No adverse effects due to skin contact are expected.
Eye contact Causes serious eye irritation.
Ingestion Expected to be a low ingestion hazard.
Symptoms related to the Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred
physical, chemical and vision. Ingestion of a large quantity may cause nausea and systemic effects.
toxicological characteristics
Information on toxicological effects

### Acute toxicity
Not expected to be acutely toxic.

### Skin corrosion/irritation
Prolonged skin contact may cause temporary irritation.

### Chronic toxicity

**Respiratory or skin sensitization**
Not a respiratory sensitizer.

**Skin sensitization**
This product is not expected to cause skin sensitization.

**Germ cell mutagenicity**
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

**Carcinogenicity**
Gentian violet may cause cancer based on animal data.

Not listed.

**Reproductive toxicity**
Gentian violet may cause adverse reproductive effects based on animal data.

**Specific target organ toxicity - single exposure**
Central nervous system (Category 3).

**Aspiration hazard**
Not an aspiration hazard.

**Chronic effects**
Prolonged or repeated exposure to gentian violet may cause liver and/or thyroid damage.

### 12. Ecological information

**Ecotoxicity**
This product contains a component that is very toxic to aquatic life with long lasting effects.

**Persistence and degradability**  
No data is available on the degradability of this product.

**Bioaccumulative potential**

**Partition coefficient n-octanol / water (log Kow)**
Isopropyl alcohol (CAS 67-63-0)  
0.05

**Mobility in soil**
No data available.

**Other adverse effects**
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

### 13. Disposal considerations

**Disposal instructions**
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

**Local disposal regulations**
Dispose in accordance with all applicable regulations.

**Hazardous waste code**
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

**Waste from residues / unused products**
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

**Contaminated packaging**
Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

### 14. Transport information

**DOT**

| UN number | UN1219 |
| UN proper shipping name | Flammable liquid, n.o.s. (Isopropanol) |
| Transport hazard class(es) | Class 3 |
| Packing group | II |

**IATA**

| UN number | UN1219 |
| UN proper shipping name | Flammable liquid, n.o.s. (Ethanol) |
| Transport hazard class(es) | Subsidiary risk 3 |
| Packing group | II |
| Environmental hazards | No |

**IMDG**

| UN number | UN1219 |
| UN proper shipping name | Flammable liquid, n.o.s. (Ethanol) |
| Transport hazard class(es) | Class 3 |
| Subsidiary risk | F-E, S-D |
| Packing group | II |

**Special precautions for user**
Read safety instructions, SDS and emergency procedures before handling.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**
Not established.

### 15. Regulatory information

**US federal regulations**
All components are listed on or exempt from the U.S. EPA TSCA Inventory List. FEDERAL LAW RESTRICTS THIS DRUG TO USE BY OR ON ORDER OF LICENSED VETERINARIANS.
TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)
Not regulated.
OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
